PRODUCT BULLETIN

PRODUCT NAME: **RIGHT RINSE™**

PRODUCT NUMBER: **HBI 128**

DESCRIPTION: **RIGHT RINSE** is a concentrated, mild, biodegradable, free-rinsing surface cleaner. **RIGHT RINSE** is suitable for use on all surfaces. It can be cut by adding as little as 1 to 2 ounces of concentrate to one gallon of water. **RIGHT RINSE** is packaged in 5-gallon pails and 55-gallon drums.

FEATURES: **RIGHT RINSE** contains delicate surfactants that gently clean the surface and provide excellent rinsing properties. **RIGHT RINSE** is recommended for use on surfaces immediately after cleaning them with HBI's Tuff Prep in order to insure that all surface contamination is removed. **RIGHT RINSE** is an excellent wash for all surfaces especially those surfaces that have been coated with HBI's **Nyalic®** clear protective coating.

DIRECTIONS: For best results, use **RIGHT RINSE** full strength. If you choose to cut **RIGHT RINSE**, it is best to use warm water. To clean large surface areas, dip a soft-bristle brush into the product and apply **RIGHT RINSE** to the surface from bottom to top. Do not allow the product to dry. Rinse the product off from top to bottom. Smaller surface areas can be washed using a soft lint-free cloth.

TECH DATA:	Appearance:	Clear yellow liquid
	Odor:	Light lemon
	Specific Gravity:	1.00
	Boiling Point:	210°F (99°C)
	Freezing Point:	32°F (0°C)
	pH:	9.0 - 10.0
	Flash Point:	N/A
	Solubility:	100%

For more information please refer to the product MSDS.
