PRODUCT BULLETIN

- PRODUCT NAME:** **TUFF PREP™**
- PRODUCT NUMBER:** **HBI 172**
- DESCRIPTION:** **TUFF PREP** is a biodegradable, concentrated, powdered surface cleanser. **TUFF PREP** quickly removes oxidation, road film, light scratches and metallic grime from surfaces. **TUFF PREP** is packaged 30 pounds in a 5-gallon pail and 350 pounds in a fiber drum.
- FEATURES:** **TUFF PREP** is formulated using extremely fine abrasives that scour the surface. **TUFF PREP** contains no bleach. **TUFF PREP** is recommended for use on painted metal surfaces to remove oxidation before applying HBI's **Nyalic®** clear protective coating.
- DIRECTIONS:** Mix **TUFF PREP** with water to obtain a pasty consistency. Dip a fine scrubbing pad (HBI 302-SP is recommended) in the mixture and scrub the paste onto the surface using a circular motion. Keep water flowing and the surface wet to prevent scorching. HBI's Power Head (HBI 301-PH) is an excellent tool for powered scrubbing action on large areas. Rinse the **TUFF PREP** off from top to bottom with lots of water. Do not allow **TUFF PREP** to dry on the surface. Follow all use of **TUFF PREP** by washing the surface with HBI's Right Rinse.
- TECH DATA:**
- | | |
|-------------------|-------------------|
| Appearance: | Fine white powder |
| Odor: | None |
| Specific Gravity: | |
| Mesh size: | Fine |
| Compaction: | Minor |
| Detergency: | Anionic |
| pH (1%): | 6.8 – 8.5 |
| Flash Point: | N/A |

For more information please refer to the product MSDS.
